To give our students an idea of the cost of studying at CAC in order to obtain a degree we here present the average cost of the AMTA (Assistant Master of Taoist Arts) and MTA (Master of Taoist Arts) studies per year. Because the students are free to take more or less courses per year and because they can also take private sessions and since the capacities and talents of students differ, it is impossible to give an exact idea of the cost. In any case, studying at CAC makes it possible to get unique, superior quality education at an extremely low cost. More information can be found in our downloadable guide.
